Fernão Pires, Verdelho, and Chardonnay

#### TECHNICAL DATA

TOTAL ACIDITY  
5,5g tartaric acid / liter

RESIDUAL SUGAR  
4,0 g/liter

PH  
3,33

ORGANOLEPTIC CHARACTERISTICS

A citrus yellow coloured wine, with intense aromas of tropical fruits and some flowers such as roses and orange tree, smooth to the palate and extremely refreshing. Should be served chilled at around 12°C.

HARVEST

Manually picked in dry conditions. Average yield: 55 hl/ha

VINIFICATION

Total separation from stalk and crushing. Light pre-fermentative maceration followed by controlled temperature fermentation.
